SUMMARY

Dynamic developer with a passion for crafting high-performance, user-centric web applications. Adept at transforming complex designs into intuitive, responsive interfaces. Known for optimizing web performance, championing accessibility, and ensuring code quality. I enjoy collaboration across teams, and am committed to learning and delivering digital experiences that elevate brand presence and enhance user engagement. (view portfolio)

WORK EXPERIENCE

Frontend Developer, (korea**)**   **NamuLabs**   **Oct, 2024 – March. 2025**

- Built intuitive, pixel-perfect user interfaces for decentralized applications using Next.js, TypeScript, and TailwindCSS. Created reusable components and optimized performance for responsiveness and accessibility.
- Developed and integrated new features into pre-existing blockchain apps, improving user engagement by 15%.
- Collaborated cross-functionally with developers, product designers, and project leads to meet tight project deadlines.

Frontend Developer, (Lagos)   **NinoHairs**   **March, 2024 - July, 2024**

- Designed and developed both user and admin dashboards, ensuring smooth API integration from the backend for optimal functionality.
- Translated UI/UX prototypes into functional application using Next.js, Tailwind and MUI for styling.
- Discussed, analyzed and strategized product design with Product managers, UX team and Backend team.
- Developed seamless authentication functionality and UI using Redux, Formik, and Tanstack Query, boosting app security and user experience.

Full-Stack Intern, (Abuja)   **Tongston Entrepreneurial Group**   **Jan, 2023 – Dec. July, 2023**

- Integrated flutterwave Payment gateway for a consultation booking application, increasing company revenue by 5% and improving user engagement by 20%.
- Utilized React.js, styled components, MUI, and Firebase to maintain a high-performance component lifecycle.
- Implemented a centralized version control system with GitHub to enhance team collaboration.

EDUCATION

ALX Nairobi
- SOFTWARE ENGINEERING
